MATERIALS

CLEAN&CARE

AN INVESTMENT IN QUALITY LIGHTING CAN BE BETTER SERVED IF THESE PRODUCTS ARE MAINTAINED PROPERLY.

IN ORDER TO GET THE MOST OUT OF YOUR LIGHTING FIXTURES, SIMPLY FOLLOW THESE CARE AND CLEANING GUIDELINES.

MATERIALS

Iron, Aluminum and Copper

Use a clean, soft cloth and gently wipe your lamp. Solid metal bases can be polished with lemon oil.

Brass

Brass bases are lacquered to prevent tarnishing; therefore, using a brass cleaner is not necessary.

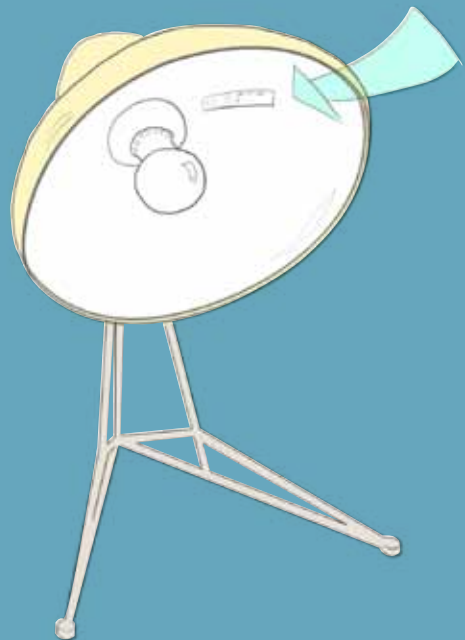

To maintain the finish, use a clean, soft cloth to wipe your lamp.

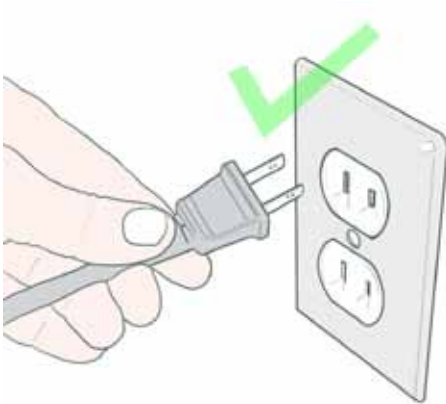

Lacquered colors

Use a clean, soft cloth to wipe your lamp. You may also dampen the cloth with a mild solution of soapy water. Rinse thoroughly with a white cloth dipped in clean water.

Marble

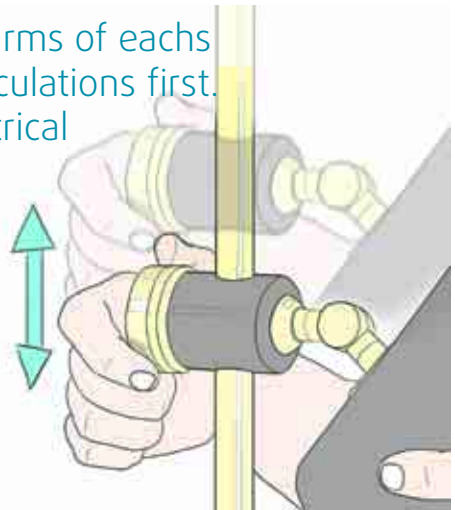

Use a clean cloth and wipe the stone. You may also dampen the cloth with a mild solution of soapy water.

Cleaning Before cleaning any lamp shade or fixture, disconnect the power source (unplug from outlets). All Lamps Shades and Bases do not use any harsh abrasives, polishes or chemicals.

Articulating Before moving the arms of each lighting fixture, unscrew the articulations first. If not, you can damage the electrical connections permanently.

Light Bulbs Warranty and the electrical certificate is inside each lamp shade, here you will find the recommended light bulb for replacement. Avoid touching the glass part of the bulb with your fingers.
